Meets ASTM
standard

**LIFETIME
LIMITED
WARRANTY**

DECKING BOARDS

- Not a wood composite product; no wood or rice shell fillers at all
- Advanced PVC cellular technology
- Natural "wood-grain" appearance
- Fastener & groove system makes installation easy
- Environmentally friendly, contains no harmful materials
- 40-50% lighter than most alternatives, and much stronger and more durable

Cellek deck was tested by driving a car and a forklift on it. The board was undamaged.

regional distributors

SCRATCH RESISTANT

As illustrated, drag a key across the decking boards, there will be no grain loss or scratch marks on the strong and dense surface of Cellek deck board.

SPLIT RESISTANT

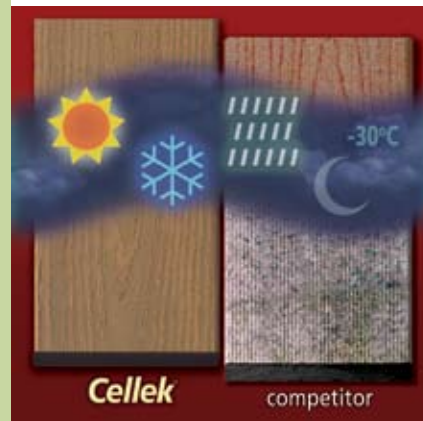

Drive a screw near the edge of the decking board without pre-drilling, Cellek deck board will not split, crack or show mushroom distortion.

STAIN RESISTANT

Apply ketchup, BBQ sauce, cooking oil and wait as long as you like, then wipe. Cellek deck board will not stain.

MOLD RESISTANT

Cellek deck boards are made with cellular vinyl technology and contain no wood or rice shell fillers. Cellek deck resists mold growth from the inside out.
